DETAILED ACTION

1. This office action is in response to the telephone interview with Mr. Andrew M. Lawrence on July 2010 to clarify the reason for allowance.

Allowable Subject Matter

4. Claims 1-17, 19-29, 32-33, and 36-38 are allowed.

5. The following is an examiner's statement of reasons for allowance:

The present claims are allowable over the closest references: Tanamura et al. (JP 10-144469).

Summary of Claim 1:

A composition comprising a mixture of	
	at least one monomer with the formula: $A-(X)_n$ (1)
	at least one monomer with the formula: $B-(Y)_m$ (2)
where monomers of formula (1) are polymerisable with monomers of formula (2)	
n & m	integers greater than or equal to 2 such that n and m may be the same or different
X	a group containing a terminal thiol
Y	a group containing a reactive unsaturated carbon-carbon bond
	each X may be the same or different, each Y may be the same or different
A & B	molecular fragments

Art Unit: 1796

	such that at least one of A or B is an organic charge-transporting or organic light-emitting fragment
the mixture further comprising at least one of an emissive dopant and a charge transporting dopant	

Tanamura et al. disclose a **composition comprising an organic luminescent layer and a substrate** for the organic electroluminescence device, the composition comprising a monomer containing polyfunctional acrylate in the formula of

and a monomer containing polymercapto group in the formula of

Art Unit: 1796

wherein R = SH (claims 1-3; [0013], [0035]-[0040]). Tanamura et al. further disclose that the photopolymerization is carried out in the presence of an ultraviolet ray absorbent which reads on the initiator ([0045]). However, Tanamura et al. do not teach or fairly suggest the claimed composition, wherein the composition comprises, in particular, a mixture of at least one monomer (1), at least one monomer (2), and at least one of an emissive dopant and a charge transporting dopant.

In light of the above discussion, it is evident as to why the present claims are patentable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
